wants this all packaged up and sent to Arizona immediately. So that will handle most of the next day or so.

Also see page 8 of the AT affidavit. I just wanted to add to the data sent the other day my thought on this section or when it goes public its going to be too lasy to see what

hopped and only so many people will know about this. This could be a problem for [redacted]. We don't necessary (sic) want this just because of a stupid PR-minded idea. I think we'd bette chop out or black out all or part of this to avoid obvious consequences.

I have already

sent, as I said,
what I observed
about the rest of the
affir the other day
and I hasten again
to pass this on it
can't bee (sic) said
too much.

This is all on
this cycle now.

This is OK.

Much love

AR.
